We Endorse the Fall 2018 OW and ODSP Changes

We support the very important changes that are coming to Ontario Works and ODSP this fall. These changes are vey important to people on social assistance in our community and those who support and work with them. People on social assistance have lived in enforced poverty for years, under a punitive system that is more about surveillance and coercion than support and dignity. These changes are positive moves that will improve life for people on OW and ODSP and change the social assistance system for the better.
